- **Non-chlorinated**
- **Pleasant smelling**

ProVetLogic Groomers' Tools & Clipper Sanitizer

Developed specifically for the **Pet Grooming Industry**, *Groomers' Tool & Clipper Sanitizer* is the perfect solution for hard nonporous surfaces in the grooming environment.

ProVetLogic's Groomers' Tool & Clipper Sanitizer is effective against a wide range of pathogens that are commonly found in the grooming environment including *Transmissible Gastroenteritis Virus, Canine Parainfluenza Virus, Ringworm, Feline Calicivirus, MRSA, E.coli, Salmonella* and more!

DIRECTIONS FOR USE: Remove bottle cap and squeeze bottle until the liquid reaches the desired level at either ½ per 32-ounces of water or 1 ounce per gallon of water.

Grooming Clippers & Electric Shears: Measure ½ ounce of solution, add to a 32-ounce labeled spray bottle and fill with water. Remove hair and dust particles before treating blades. While the clipper/shear is running, hold in the downward position and spray. Do not spray the solution on the clipper case or drip into clipper housing. Allow the blades to air dry before reusing.

Shedding Tools, Slicker Brushes, Pin Brushes, Nail Clippers, etc.: Measure ½ ounce of solution, add to a 32-ounce labeled spray bottle and fill with water. Apply the solution and brush or scrub if needed. Allow the solution to stand for at least 10-minutes and rinse with fresh water. The item is now ready to reuse.

Soaking Solution: To sanitize combs, brushes, razors, scissors, trimmer and/or clipper blades and nail instruments, remove hair and heavy soil. Measure and mix ½ ounce of solution per 32-ounces of water in a soaker jar. Immerse item for at least 1-minute. Rinse thoroughly and dry before use. Prepare a fresh solution daily or when visibly dirty.

Note: Plastic instruments can remain immersed until ready to use. Stainless steel shears and other metal instruments must be removed after 10 minutes, rinsed, dried and kept in a clean non-contaminated receptacle.

Grooming Tables & Tubs: Measure ½ ounce of solution, add to a 32-ounce labeled spray bottle and fill with water. Remove heavy hair and debris. Preclean heavily soiled surfaces, using ProVetLogic Kennel & Turf Enzymatic Cleaner, to remove soil and other buildup of organic matter. Apply the premixed sanitizing solution to the surface. Brush or scrub if needed. Allow the solution to stand for at least 10-minutes and rinse with fresh water. The surface is now ready to reuse!

Pet Carriers & Cages: Measure ½ ounce of solution, add to a 32-ounce labeled spray bottle and fill with water. Remove heavy hair and debris. For heavily soiled surfaces a preclean is recommended to remove soil and other buildup of organic matter. Apply the premixed sanitizing solution to the surface. Brush or scrub if needed. Allow the solution to stand for at least 10-minutes and rinse with fresh water. The surface is now ready to reuse!

Item No.	Case Pack	Use Ounces	Uses Per Bottle	Uses Per Case
