

# Animal Facility Disinfectant

## Retail Pet Store Cleaning System

Clean Dog and Cat Kennels,  
Carriers & Crates

Effective against Canine  
Influenza & Parvovirus

Clean Floors, Countertops,  
Retail Shelves & More!

Use the Wet Wipe System to  
clean Bird Cages

Effective Against  
Minute Virus of Mice

E.P.A. Registered & Approved  
Terrarium Cleaner

- ✓ **SAFE** for cleaning in and around sensitive animal habitats where harsh sprays and aerosols can cause upper respiratory distress
- ✓ **EFFECTIVE** against over 50 infectious agents that can cause illness in dogs, cats, birds, reptiles, mice and other animals
- ✓ **ONE-STEP** cleaner, disinfectant and deodorizer
- ✓ **E.P.A. REGISTERED & APPROVED** for cleaning pet cages, carriers, terrariums, counter tops, floors and most other hard nonporous surfaces
- ✓ **RECOMMENDED & USED** by veterinarians, zookeepers, groomers and other professional animal care providers throughout the United States
- ✓ **CONCENTRATED FORMULA** dilutes 1-ounce per gallon for general disinfecting and 4-ounces per gallon for effectiveness against Canine Parvovirus.

Make up to 64 Canisters and  
over 10,000 Wet Wipe Towels  
with just a ½ gallon of  
Animal Facility Disinfectant!

  
**ProVetLogic**  
Professional

Developing and implementing effective cleaning protocols for Retail Pet Stores can be challenging for a number of reasons, including:

1. Many of the disinfectants on the market today, including peroxide and chlorine based formulas, have minimal multi-species infectious agent kill claims. This requires the use of at least one additional cleaning solution to implement an effective facility cleaning/disinfecting protocol.
2. Some disinfectants, including peroxide based formulas require up to 8-ounces of product per gallon of water to create the manufacturers required use dilution.
3. Disinfectants with higher use concentrations, such as peroxide and chlorine based formulas, are known to cause upper respiratory illness in kittens, cats, birds and other sensitive animals.
4. Most animal specific disinfectants require the use of a spray device when applying the product. Sprayed and aerosolized chemicals can easily migrate from one area of a room to another, requiring that the animals be removed from the area.

**ProVetLogic** is one of, if not the only company today to develop cleaning products and protocols designed for the care of a wide variety of animal species.

Item		DESCRIPTION	EFFECTIVE AGAINST
	Animal Facility Disinfectant	<ul style="list-style-type: none"> <li>• Effective against 50 infectious agents</li> <li>• Economical concentrate (.32 per use gallon)</li> <li>• One-Step Solution (clean-disinfect-deodorize)</li> <li>• Effectively breaks through surface soil</li> <li>• Pleasant smelling</li> </ul>	<p><b>CANINE</b></p> <p>Bordetella Bronchiseptica (Kennel Cough)            Canine Parvovirus (CPV) (4 oz. per gallon)            Canine Adenovirus            Canine Coronavirus            Canine Distemper            Canine Parainfluenza Virus            Canine Hepatitis            Infectious Bronchitis Virus            Rabies Virus</p> <p><b>FELINE</b></p> <p>Feline Calicivirus            (surrogate for Norwalk/Norovirus)            Feline Infectious Peritonitis            Feline Leukemia Virus            Feline Panleukopenia            Feline Picornavirus            Feline Rhinotracheitis</p> <p><b>AVIAN</b></p> <p>Avian Influenza A H9N2/Turkey            Wisconsin Virus Infectious            Avian Laryngotracheitis            Avian Influenza A H5N1 Virus            Arian Reovirus</p> <p><b>FARM</b></p> <p>Equine Arteritis Virus            Influenza A2/Japan Virus            Minute Virus of Mice (4 oz. per gallon)            Newcastle disease virus            Porcine Parvovirus (4 oz. per gallon)            Porcine Rotavirus            Pseudorabis virus            Porcine Respiratory (PRRSV)            Infectious Bovine Rhinotracheitis            Transmissible Gastroenteritis (TGE)            Campylobacter jejuni</p> <p><b>OTHER (PRIMATES)</b></p> <p>Aspergillus niger            Trichophyton mentagrophytes            Staphylococcus MRSA            Escherichia coli            Salmonella            Herpes Simplex Type 1 &amp; 2            HIV-1 (AIDS Virus)            Human Corona Virus            Influenza A/Hong Kong            Hepatitis B &amp; C</p>
	ProLoc Wall-Mounted Dispensing System	<ul style="list-style-type: none"> <li>• For use with Animal Facility Disinfectant</li> <li>• The ProLoc Bottle is machine plugged to discourage free-pouring of product</li> <li>• Dilute and fill mop buckets, refillable canisters and/or spray bottles with a push of a button.</li> <li>• Easy to install and maintain</li> </ul>	
	Refillable Canister w/ Towel Roll	<ul style="list-style-type: none"> <li>• Environmentally friendly, refillable and reusable canister</li> <li>• Spring loaded lid to help keep towels moist</li> <li>• Checkoff box for general disinfecting or isolation</li> <li>• Towels retain efficacy for up to 60-days</li> </ul>	
	Refillable Canister Towel Roll	<ul style="list-style-type: none"> <li>• 160 count towel roll</li> <li>• Made of high quality and durable fiber</li> <li>• Quickly absorbs and holds solution</li> <li>• Becomes stronger when wet</li> <li>• Holds together when cleaning textured surfaces</li> </ul>	
	Refillable Canister Locking Bracket	<ul style="list-style-type: none"> <li>• Securely holds the Refillable Wiping Canister in place</li> <li>• Discourages the removal of the canister from it's intended area</li> <li>• Easy to install</li> </ul>	
	Hot Zone Spray Bottle System	<ul style="list-style-type: none"> <li>• Specifically labeled for use with Animal Facility Disinfectant</li> <li>• Each case is packed 12/32-ounce bottles with triggers sprayers</li> <li>• Each case includes four each peel and stick labels (<i>General Disinfecting, Isolation, Cat &amp; Bird</i>)</li> </ul>	
	Cage Brush	<ul style="list-style-type: none"> <li>• Length: 10.5 inches</li> <li>• Manufactured with FDA Compliant materials</li> <li>• Durable</li> <li>• Dishwasher safe</li> <li>• Choose from a variety of colors</li> </ul>	
	Laminated Protocol Wall Charts	<ul style="list-style-type: none"> <li>• Chose from a variety of species and area specific cleaning protocols</li> <li>• Step-by-step instructions for implementing an effective cleaning and disinfecting protocol</li> <li>• Laminated to protect chart from damaging moisture</li> </ul>
